## Performance made certain with a kWh guarantee

A high quality solar system with a guaranteed kilowatt hour (kWh) yield. It almost sounds too good to be true. However, this is exactly what Autarco's kWh guarantee entails; a high guaranteed return insured through the kWh guarantee foundation in collaboration with the world's largest insurer Lloyd's of London. If your solar system's yield is less, we will pay the difference in cash per kilowatt hour missed.

**A guaranteed return on investment**

# Performance made certain

Solar made simple, Autarco's insured kWh guarantee

## THE INSURED KWH GUARANTEE OF AUTARCO

Autarco is a Dutch brand of solar power systems and is the only manufacturer in the world with an insured kWh guarantee for rooftop solar. The value of this guarantee and the associated service and maintenance that is provided is enormous. For example, research into the performance of 5000 PV systems has shown that Autarco systems with a kWh guarantee perform 6 to 8 percent better than comparable systems without.

Over a period of 10 to 15 years, this quickly yields an extra 700-1000 euros for a residential system.

## REDUCED RISK OF LOWER YIELD AND UNSAFE SITUATIONS

Solar power systems with Autarco's insured kWh guarantee perform better than systems without. Of course, a kWh guarantee does not in itself improve the performance of a system, but the quality of our products and all the processes and software surrounding them that make this guarantee possible do! We check your solar power system after installation before a kWh certificate is issued and we continue to monitor the yield and performance of the system after installation on the basis of a digital copy of your system, which we call a 'Digital Twin'. This allows us to quickly detect and resolve any (installation) errors in your system.

## DIFFERENT PACKAGES

Autarco offers two different packages:

- A standard kWh guarantee issued by Autarco and insured on a portfolio level
- A premium kWh guarantee issued by the kWh guarantee foundation and backed by Lloyd's of London

## THE BENEFITS OF A KWH GUARANTEE SUMMARIZED:

- Rocksolid business case
- Quick return on investment
- No-nonsense claim handling
- Better maintenance through faster problem identification
- Active monitoring of a system after installation with the Autarco 'Digital Twin'
